

Chapter style examples in OpTeX

Version 2022-07-16

The following examples were made with OpTeXversion 1.07.

The default chapter style is defined by `\printchap` in `sections.opm` as:

```
\_def\_printchap #1{\_vfill\_supereject \_pre-  
vdepth=0pt  
  \_vglue\_medskipamount % shifted by top-  
kip+\medskipamount  
  {\\_chapfont \_noindent \_mtext{chap} \_print-  
refnum[@]\_par  
    \_nobreak\_smallskip  
    \_noindent \_raggedright #1\_nbpar}\_mark{}}%  
    \_nobreak \_belowtitle{\_bigskip}%  
    \_firstnoindent  
}
```
